Meet the **Global Health Connector Village**

16-18 November 2026
HLTH USA

Venetian Expo Center
Las Vegas, exhibition floor

WELCOME TO THE VILLAGE

One pavilion.
The whole world of health innovation.

The Global Health Connector Village is the home for international delegations at HLTH USA. Organisations, delegations and alliances come together to connect, exhibit and find global partners, with pitches and panels on the Village Stage all week. Every company in this booklet is here to meet you.

32 exhibitors | **85** organisations | **138** delegates

MONDAY

16 November
Village open 8.00 AM to 5.30 PM

Talk · Pitches · Networking

10.00 AM · 15 min
Announcing a New Global Strategic Partnership: Next Stop HLTH Europe
Rich Scarfo, HLTH · Brian O'Connor, Global Health Connector
TALK

10.30 AM · 30 min
Pitching Session 1
io Health, OnaWave Medical, Childfree Trust, Sonitor
PITCHES

11.00 AM · 30 min
The High-Performing Health System: Workforce, Workflow & Intelligent Operations
Innovation Norway · Sonitor, Dossier, Laerdal, Alfred Surgery, Convene
TALK

11.30 AM · 30 min
From Guesswork to Insight: The Future of Digital Health at Home
Enterprise Ireland · FoodMarble, Coroflo
TALK

12.00 PM · 30 min
Wearables Making Healthcare Intelligence More Continuous, Personalised and Accessible. Find Out How
Kabir Kasargod, Qualcomm Technologies · Personal AI Health Alliance
TALK

LUNCH BREAK

1.15 PM · 45 min
Personal AI Health Alliance Members Introduce Their Wearables
Introduced by Bleddyn Rees, Global Health Connector · Biolinq, Tripura Breath, Lirio, Peerbridge Health, Neurable, IDUN Technologies, MindMics
PITCHES

2.00 PM · 30 min
Nashville Pitches
Subflow Health, Lirio, Sendit and more to be announced
PITCHES

2.30 PM · 30 min
Pitching Session 2
ULAM Labs, avey.ai, DocGlasses and more to be announced
PITCHES

3.00 PM · 30 min
Pitches by Healthcare Innovation from Canada
Canadian startup delegation
PITCHES

3.45 PM · 15 min
Connected Health & Community Care Accelerator (CHACCA)
Presented by GSMA Foundry
TALK

4.00 PM · 60 min

NETWORKING · DON'T MISS IT
Global Village Networking Reception
Hosted by GSMA · Drinks and conversations at Booth 829

TUESDAY

17 November
Village open 8.00 AM to 5.15 PM

Talk · Pitches · Networking

9.15 AM · 5 min
Pitching Session 3
Greater Gain Group
PITCHES

10.00 AM · 30 min
Personal AI Pioneers in Action
Moderator: Kabir Kasargod, Qualcomm · Mohammad Hammoud, avey.ai · Danish Ahmed, DocGlasses · Anne-Marie Denault, Tripura Breath
TALK

10.30 AM · 30 min
It Takes a Village: What Are Investors Betting On Now?
Sari Kaganoff (host) · Johannes Blaschke, CALM/STORM · Joseph Tuchman, Great Point Ventures · Vinay Raj, CVS Health Ventures
TALK

11.00 AM · 30 min
Nashville Pitches
MindWave Medical, Decode Health, Health Samurai, UnityAI, CareMoat (1WAV), Peachy Day
PITCHES

11.30 AM · 30 min
Pitches by Healthcare Innovation from Canada
Canadian startup delegation
PITCHES

12.00 PM · 30 min
The Smartest Person Is the Patient: Redesigning Cancer Care Around Them
CancerX · Moderator: Diana Gelston, The Gelston Group · Nicole Althaus, Global Health Connector · Grace Cordavano, Enlightening Results · Stephen Konya, ONC · Santosh Mohan, Advocate Health
TALK

LUNCH BREAK

1.30 PM · 30 min
From Prevention to Participation: Technology Across the Care Journey
Innovation Norway · Oivi, MyWorkout, Ambr, Care Safety Innovations
TALK

2.00 PM · 30 min
The Intelligent Health System: AI, Automation & Virtual Care
Enterprise Ireland · Akara Robotics, myPatientSpace
TALK

2.30 PM · 90 min
Global Village International Pitch Showcase
12 startups · 4-minute pitches plus questions · audience vote and awards
PITCHES

4.00 PM · 60 min
NETWORKING · DON'T MISS IT
Global Village Networking Reception
Hosted by Enterprise Ireland

WEDNESDAY

18 November · Village open 8.00 AM to 12.00 PM
No stage programme: a morning for one-to-one meetings with the exhibitors.

WHO YOU WILL MEET · A TO Z

32 exhibitors, **one Village**

1WAV 06
Private networks for hospitals

AEYE Health 06
Autonomous AI eye screening

Akara Robotics 06
AI for operating rooms

avey.ai 07
Medicine-native health AI

Childfree Trust 07
Fiduciary for adults without kids

CliniComp 07
Web-based EHR with native AI

Coroflo 08
Smart sensor for breastfeeding data

Decode Health 08
Precision medicine and risk models

DocGlasses 09
Smart glasses AI scribe

Enterprise Ireland 09
Irish delegation

FoodMarble 09
Breath-based digestive health

Greater Gain Group 10
Revenue systems for health tech

Health Samurai 10
FHIR-native software

Healthcare Innovation from Canada 11
Canadian delegation

Innovation Norway 11
Norwegian delegation

io Health 11
Home health documentation

Launch Tennessee 12
Startup hub and investor

Lirio 12
Behavioral science AI

MindWave Medical 12
Alarm routing for hospitals

myPatientSpace 13
No-code patient engagement apps

Nashville Area Chamber of Commerce 13
Economic development

Nashville Entrepreneur Center 13
Founder support

Nashville Health Care Council 14
Healthcare leadership

OnaWave Medical 14
Pelvic health digital biomarkers

Peachy Day 14
AI migraine prediction and telehealth

Personal AI Health Alliance 15
Wearables and personal AI

Sendit 15
Workforce OS for medical groups

Sonitor 15
Real-time location for hospitals

Subflow Health 16
Patient adherence and care journeys

Thyme Companies 16
Oncology care companies

ULAM Labs 16
MedTech engineering and integration

UnityAI 17
AI workflows for patient access

HEALTH DATA & INFRASTRUCTURE

1WAV

1wav.com ↗

Hospitals run on old, unreliable networks built on legacy wired hardware and consumer-grade Wi-Fi, and they cannot support the 200% to 500% growth in data expected over the next five years. 1WAV builds private networks for healthcare that extend beyond the main campus to satellite clinics and patients' homes, privately and securely. Faster, with a higher service level and at a lower cost than mobile carriers, 1WAV spent seven years assembling a stack nobody else has put together for healthcare, and is already deploying in a multi-state health system.

ON STAGE **Tuesday 17 November · 11:00 AM**
Nashville Pitches, Village Stage

AI, WEARABLES & DIAGNOSTICS

AEYE Health

aeyehealth.com ↗

AEYE Health is on a mission to end preventable blindness through autonomous AI. Its flagship technology, AEYE-DS, is the fastest-growing diabetic retinopathy screening solution in the U.S. and the only FDA-cleared portable AI solution. AEYE-DS is cleared to fully replace specialist interpretation, detecting referable diabetic retinopathy in about one minute at the point of care, using a single image per eye from a handheld camera.

MORE FROM ENTERPRISE IRELAND

Akara Robotics

akara.ai ↗

Akara is a healthcare automation company. Its AI platform captures surgical event data in real time to coordinate staff and robots: a sensor placed in the operating room passively monitors key events, and the platform turns that data into actionable insights. Akara also builds Violet, an autonomous UV disinfection robot.

ON STAGE **Tuesday 17 November · 2:00 PM**
The Intelligent Health System, Village Stage

AI, WEARABLES & DIAGNOSTICS

avey.ai

avey.ai ↗

Avey is a deep AI company building the intelligence layer for health: a proprietary, medicine-native large language model that unifies clinical reasoning, medical coding, pharmacological safety and payer adjudication in one long-context system.

ON STAGE **Monday 16 November · 2:30 PM**
Pitching Session 2, Village Stage

PATIENT ENGAGEMENT & CARE AT HOME

Childfree Trust

childfreetrust.com ↗

Childfree Trust is the professional fiduciary for adults without kids. 25 million Americans over 55 are childfree, yet the estate and long-term care system assumes family will make decisions when they can't. Its patented platform creates estate and care documents that appoint an independent trust company as medical POA, financial POA, executor and trustee. Childfree Trust serves as the 24/7 emergency contact and carries out clients' wishes in disability and after death. Based in Tennessee and backed by an NIA SBIR grant, it is expanding into the Medicare Advantage and HR benefits markets.

ON STAGE **Monday 16 November · 10:30 AM**
Pitching Session 1, Village Stage

HEALTH DATA & INFRASTRUCTURE

CliniComp

clinicomp.com ↗

CliniComp is a global healthcare IT leader with over 42 years of innovation. Its New Era EHR Solution Suite is an end-to-end platform with native AI and integrated ancillary solutions across the care continuum, delivered through a System as a Service (SYaaS) model with rapid deployment, all-inclusive support and no cost ambiguity. Designed by clinicians for clinicians, CliniComp's web-based EHR delivers seamless interoperability, real-time performance and decades of no planned downtime, and has been named Best Overall EHR Solution Provider by MedTech Breakthrough.

WOMEN'S HEALTH & SPECIALTY CARE

Coroflo

coroflo.com ↗

Coroflo is an Irish technology company pioneering the future of infant care through precision micro-sensor technology. Its product Coro is the world's first smart nipple shield with patented micro-flow sensor technology, measuring the exact milk volume transferred in real time during breastfeeding. Data streams to a mobile app without disturbing feeding, removing guesswork, reducing maternal anxiety and giving parents and clinicians actionable insights to improve long-term health outcomes.

ON STAGE **Monday 16 November · 11:30 AM**
From Guesswork to Insight, Village Stage

AI, WEARABLES & DIAGNOSTICS

Decode Health

decodehealth.ai ↗

Decode Health is a precision medicine research and development company based in Nashville, Tennessee, turning molecular and clinical data into findings partners can act on. Pharma, biotech, diagnostics and medical device companies work with Decode on biomarker panels and therapeutic candidates, while payers, health systems and health tech companies work with it on risk models. Machine learning and agentic AI do the heavy lifting and experts review the findings, helping partners identify patients earlier, match treatments to each patient's biology and intervene before disease or costs escalate.

ON STAGE **Tuesday 17 November · 11:00 AM**
Nashville Pitches, Village Stage

HOSPITAL OPERATIONS & WORKFORCE

DocGlasses

docglasses.ai

DocGlasses is an AI companion for every clinician. Running on smart glasses, it sees and hears the patient encounter hands-free and writes a multimodal note for the clinician to confirm. Co-engineered with Qualcomm and approved by Veterans Affairs, it has been piloted across eight sites with 92% accuracy on clinical capture.

ON STAGE **Monday 16 November · 2:30 PM**
Pitching Session 2, Village Stage

IRISH DELEGATION

Enterprise Ireland

enterprise-ireland.com

Enterprise Ireland is the Irish government agency responsible for developing Irish enterprises in world markets. It helps Irish businesses start, grow, innovate and win export sales through its international network, supporting employment, regional development and sustainable economic growth.

ON STAGE **Mon 16 Nov · 11:30 AM · Tue 17 Nov · 2:00 PM**
Two talks and the Tuesday networking reception, Village Stage

---

AI, WEARABLES & DIAGNOSTICS

FoodMarble

foodmarble.com

FoodMarble measures the digestive process through breath to help people overcome the most widespread gut health conditions globally.

ON STAGE **Monday 16 November · 11:30 AM**
From Guesswork to Insight, Village Stage

HOSPITAL OPERATIONS & WORKFORCE

Greater Gain Group

greatergaingroup.com ↗

Greater Gain Group builds repeatable revenue systems for B2B technology and tech-enabled services companies selling into complex, regulated enterprise markets, healthcare foremost among them. Many of these companies have real traction but no system underneath it: no documented ICP, no reliable pipeline and no sales process the team can run without a key person in the room. Through the BUILT Method™, Greater Gain installs that system (buyer clarity, outreach, process and AI-accelerated execution) and transfers it to the client's own team to own and run.

ON STAGE **Tuesday 17 November · 9:15 AM**
Pitching Session 3, Village Stage

HEALTH DATA & INFRASTRUCTURE

Health Samurai

health-samurai.io ↗

Health Samurai builds FHIR-native software that helps healthcare organizations develop interoperable solutions faster. Creating custom health IT since 2004 and working with FHIR since 2012, the company is behind Aidbox, a FHIR backend platform, along with a family of products for clinical forms, terminology, master data management, payer compliance, e-prescribing and billing. Today Health Samurai serves more than 100 healthcare clients across 30+ countries and manages over 1 billion FHIR resources.

ON STAGE **Tuesday 17 November · 11:00 AM**
Nashville Pitches, Village Stage

CANADIAN DELEGATION

Healthcare Innovation from Canada

healthcareinnovationcanada.com

Healthcare Innovation from Canada is a consortium connecting partners to top Canadian startups in Digital Health, MedTech and Agetech. It helps high-potential startups scale quickly, raise capital and build strategic customer connections, and gives investors and clinical and business stakeholders direct access to some of the most innovative healthcare solutions.

ON STAGE **Mon 16 Nov · 3:00 PM · Tue 17 Nov · 11:30 AM**
Pitches by Healthcare Innovation from Canada, Village Stage

NORWEGIAN DELEGATION

Innovation Norway

innovasjonnorge.no

Innovation Norway is the Norwegian Government's primary instrument for fostering innovation and development in Norwegian enterprises. It gives companies access to competence, capital and networks to help them grow sustainably and increase exports, from startups to established companies.

ON STAGE **Mon 16 Nov · 11:00 AM · Tue 17 Nov · 1:30 PM**
Two talks by Norwegian health tech companies, Village Stage

PATIENT ENGAGEMENT & CARE AT HOME

io Health

iohealth.ai

io Health streamlines Home Health and Hospice documentation, making it faster, more accurate and less burdensome. Built by home health veterans, its platform delivers real-time chart validation, reduces documentation errors, improves financial performance and strengthens clinician retention. Agencies adopt io Health quickly, with no workflow disruption, no training burden and no need to change their EMR.

ON STAGE **Monday 16 November · 10:30 AM**
Pitching Session 1, Village Stage

NASHVILLE INNOVATION ZONE SUPPORTER

Launch Tennessee

launchtn.org ↗

Launch Tennessee (LaunchTN) is Tennessee's hub for startups and innovation. As a public-private partnership, LaunchTN empowers innovators across the state by providing capital, commercialisation support and connections. Through the InvestTN Fund, backed by the U.S. Treasury's SSBCI 2.0 programme, LaunchTN makes direct investments in high-growth companies while fostering collaboration among founders, investors, researchers, industry and government.

PATIENT ENGAGEMENT & CARE AT HOME

Lirio

lirio.com ↗

Lirio is the first-ever behavioral science and agentic AI platform that empowers people to live their healthiest lives through hyper-personalized and empathetic consumer experiences that meaningfully improve outcomes. Its proprietary Precision Nudging® Interventions are designed to overcome specific barriers and move people to take action for better health. Recognized with the 2025 Inc. Best in Business award, including honors for Best in Innovation, Lirio is HITRUST® CSF certified, SOC 2 Type II compliant and NIST certified.

ON STAGE **Monday 16 November · 2:00 PM**
Nashville Pitches, Village Stage

HOSPITAL OPERATIONS & WORKFORCE

MindWave Medical

mindwavemedical.com ↗

MindWave Medical is developing a fail-safe alarm-routing system for hospitals. Built on the open IEEE 11073 SDC standard, MindWave routes eligible hospital equipment alarms directly to responsible staff members through a bone conduction headset in real time, cutting alarm fatigue and unnecessary noise while keeping life-threatening alarms audible. The company has completed an international clinical trial in India and is part of the FDA's Safer Technologies Program.

ON STAGE **Tuesday 17 November · 11:00 AM**
Nashville Pitches, Village Stage

MORE FROM ENTERPRISE IRELAND

myPatientSpace

myPatientSpace is a Dublin-based digital health company. Its no-code, medical-grade platform lets healthcare providers, life sciences companies and health systems build customised apps for any patient journey, from patient support programmes and real-world evidence to pre- and post-surgery care and chronic disease management. Its customers span Europe, the Middle East, Israel and the Americas.

ON STAGE **Tuesday 17 November · 2:00 PM**
The Intelligent Health System, Village Stage

NASHVILLE INNOVATION ZONE SUPPORTER

Nashville Area Chamber of Commerce

nashvillechamber.com ↗

The Nashville Area Chamber of Commerce leads economic development for the Nashville region, working to attract investment, support business growth and strengthen key industries. With Nashville's global leadership in healthcare, the Chamber connects companies and innovators from around the world to the region's healthcare ecosystem and opportunities for U.S. market growth.

NASHVILLE INNOVATION ZONE SUPPORTER

Nashville Entrepreneur Center

ec.co ↗

The Nashville Entrepreneur Center brings entrepreneurs together to learn, grow and support each other through every stage of their journey. Its team works to assess and identify the best fit for anyone looking to navigate entrepreneurship, guiding entrepreneurs to the resources that meet their needs, whether that is with the Center or with a network organisation.

NASHVILLE INNOVATION ZONE SUPPORTER

Nashville Health Care Council

healthcarecouncil.com

The Nashville Health Care Council is dedicated to strengthening and elevating Nashville as The Healthcare City. With a $68 billion economic impact and 333,000 jobs locally, Nashville's healthcare ecosystem stands as a world-class healthcare hub. Since its founding in 1995, the Council has served as the common ground for the city's vibrant healthcare cluster, offering engagement opportunities where the industry's most influential executives convene to exchange ideas, share solutions, build businesses and grow leaders.

WOMEN'S HEALTH & SPECIALTY CARE

OnaWave Medical

onawavemedical.com

OnaWave Medical is developing a digital biomarker-based risk-stratification platform with associated wearable solutions that can identify patients with pelvic conditions, such as endometriosis and subfertility, to support clinical decision-making and enhance the delivery of personalised care for the individual.

ON STAGE **Monday 16 November · 10:30 AM**
Pitching Session 1, Village Stage

WOMEN'S HEALTH & SPECIALTY CARE

Peachy Day

peachyday.co

Peachy Day helps 50M+ Americans prevent migraine attacks through AI-powered prediction with 80%+ accuracy and telehealth, turning one minute of daily tracking into personalised care. Built by a Stanford MBA and the founder of Stanford Headache Clinic, Peachy Day is backed by Highmark Health, Stanford GSB, Techstars Founder Catalyst, StartX and Creative Destruction Lab. Its long-term vision is to become the prevention standard for 1B+ migraine patients globally and expand to parallel chronic conditions such as endometriosis, arthritis and fibromyalgia.

ON STAGE **Tuesday 17 November · 11:00 AM**
Nashville Pitches, Village Stage

AI, WEARABLES & DIAGNOSTICS

Personal AI Health Alliance

paihealth.org ↗

The Personal AI Health Alliance is a global community of healthcare and technology pioneers bringing on-device Personal AI to transform care for a worldwide audience, where intelligent wearables sense your world continuously, putting health intelligence in service of you.

ON STAGE **Monday 16 November · 12:00 PM**
Wearables Making Healthcare Intelligence More Continuous, Village Stage

HOSPITAL OPERATIONS & WORKFORCE

Sendit

sendit.health ↗

Sendit is the workforce operating system for medical groups. Contracting, payroll, scheduling and talent management run as one system instead of four that do not talk, so groups can see what is coming, keep their clinicians and protect their health system partnerships. Sendit was founded by a former hospital COO and medical group operator to take the friction out of healthcare so clinicians can focus on what they love.

ON STAGE **Monday 16 November · 2:00 PM**
Nashville Pitches, Village Stage

HOSPITAL OPERATIONS & WORKFORCE

Sonitor

sonitor.com ↗

Sonitor Technologies develops real-time location and location-intelligence solutions designed specifically for healthcare environments. SonitorONE combines precision indoor positioning with software and workflow applications for asset utilization, patient flow, staff safety and hospital operations, with deployments across more than 300 hospitals and clinics globally.

ON STAGE **Monday 16 November · 10:30 AM**
Pitching Session 1, Village Stage

PATIENT ENGAGEMENT & CARE AT HOME

Subflow Health

subflow.com ↗

Subflow Health is an automated patient adherence solution enhanced by comprehensive patient care journey orchestration. It improves clinical and financial outcomes by identifying at-risk behavior signals from patients, while its care orchestration capabilities oversee each step of the care journey, capturing data along the way and showing why a process may have broken during a patient's path. An ideal combination for value-based care organizations and providers that want to improve operations without adding staff responsibilities.

ON STAGE **Monday 16 November · 2:00 PM**
Nashville Pitches, Village Stage

WOMEN'S HEALTH & SPECIALTY CARE

Thyme Companies

thymecare.com ↗

Thyme Companies is the parent of the Thyme family of businesses, focused on building companies against the disconnection in how cancer care is delivered, accessed and paid for. Anchored by Thyme Care, the nationally recognized oncology care company, Thyme Companies develops independent businesses connected by one mission: to transform the experience of cancer for the people living through it.

HEALTH DATA & INFRASTRUCTURE

ULAM Labs

ulam.io ↗

ULAM Labs helps MedTech startups and growth-stage companies build, integrate and scale software that works inside healthcare systems. Senior engineering, accelerated by AI: custom software, HL7/FHIR integrations, AI built into healthcare products with PHI-safe data handling, and HIPAA- and GDPR-aligned infrastructure. 10+ years building software, with products running across 200+ hospitals.

ON STAGE **Monday 16 November · 2:30 PM**
Pitching Session 2, Village Stage

HOSPITAL OPERATIONS & WORKFORCE

UnityAI

unityai.co ↗

UnityAI collaborates with healthcare providers to build and operate AI-enabled workflows that solve the toughest problems in patient access, logistics and throughput.

ON STAGE **Tuesday 17 November · 11:00 AM**
Nashville Pitches, Village Stage

FIND US AT BOOTH 829

The people **connecting you**

Looking for an introduction, a partner or a new market? Our team is at the Village all week. Come and say hello.

Brian O'Connor
Chair

Bleddyn Rees
Deputy Chair

Heather Smith
Chief Operating Officer

Eric Thrailkill
Executive Director US

Nicole Althaus
Strategic Advisor, Innovation & Growth

Samuel Lewis
Communities & Partnerships Director

Estelle Clayton
Sales & Business Development Lead

Sari Kaganoff
US Ambassador

Jon Warner
US Ambassador

Want to be part of our **global network?** Let's connect.

FIVE WAYS WE WORK WITH YOU

Fast Lane Market Access

Enter new markets through relationships, not reports. Expert market intelligence plus curated introductions in the EU, US and APAC.

Funding & Consortium Development

Win non-dilutive funding without giving up equity: open calls, partner search and end-to-end bid support.

Convening Capability

Roundtables, focus groups, surveys and honest-broker facilitation with any stakeholder, in any format.

Amplification

We take your message from signal to global impact: content, speaking slots, podcasts and video across our network.

Global Flagship Events

Eleven flagship events, one connected route to new markets. We build 6, 12 or 24-month programmes around your goals.

Let's talk about your next move.

Scan to contact us, or visit us at the Global Health Connector Village, Booth 829.
