

Strategic Synergies:

Global Health Connector -
Your Trusted Partner for Innovation
in Health and Technology Projects

www.globalhealthconnector.com @globalhealthconnector

About Global Health Connector

At Global Health Connector, our vision is a world where collaboration transforms health, wellbeing and longevity. We live this every day by connecting brilliant minds in 78 countries to accelerate innovation, scale solutions, and shape healthier futures — together. Guided by our values:

Ambitious – Fearless Advocates – Catalysts for Change
Dynamic Collaborator – Impartial

We're not just part of the global health conversation.
We're driving it.

GOVERNMENT ACADEMIA BUSINESS SOCIETY

Where Global Health Connector is taking action

What does Global Health Connector do?

CONNECT

We leverage our global network to access the right people, partners, opportunities and support.

CONVENE

We act as an honest broker to bring stakeholders together around topics and initiatives.

AMPLIFY

We use our global reach to elevate your message and extend your influence.

ACCELERATE

We tap into our Ecosystems and network of experts to fast-track learning, adoption, and impact at scale.

We are your trusted project partner

With **over a decade of experience**, we lead and support projects that transform health and care worldwide. Since 2012, we have delivered European programmes while expanding our impact through global collaborations and international partnerships.

Our Innovation Team drives **research and innovation** projects in health and data governance, scouts funding opportunities, builds strong consortia, and designs proposals with our ecosystems and members.

DIGITAL HEALTH AND CARE SUPPORT TOOLS

SKILLS FOR HEALTH AND CARE WORKFORCE

SMART AND HEALTHY LIVING

Examples of expertise

Establishing a robust and lasting Permanent Stakeholders Community, actively participating in a series of consultation activities.

Developing a Knowledge Sharing Module, offering all stakeholders' groups the generated knowledge in a structured way, according to their expectations.

Providing support measures towards set – up, establishment, and expansion of social innovation ecosystems, with stakeholders from all areas related to Smart Healthy Age Friendly Environments.

Establishing the project's journey for exploitation through open innovation enhancing the uptake of project results in line with the broader health and care ecosystem's goals and priorities.

Promoting the Community of Practice as a collaborative hub for insights and discussions on managing MS and ALS with cutting-edge technology.

Fostering the annual challenges implementation to advance open science and adherence to FAIR principles

Strategically directed XpanDH Expert Summit communication, fostering impactful collaboration on the European Electronic Health Record Exchange Format. Engaging stakeholders from around Europe in the digital health ecosystem around EEHRxF.

Collaboratively spearheading communication and dissemination efforts for project awareness and sustainability, alongside actively engaging 11 international ecosystems for strategic engagement and outreach regarding project development support and exploitation.

Matching need and solution

Global Health Connector Ecosystems are all regionally or thematically focused, permanent, multi-stakeholder partnerships leading with the need; breaking down silos; transforming healthcare and creating opportunities by matching needs with solutions.

Since 2011, with the support of the European Commission, we have developed a proven methodology and approach on how to set up and manage ecosystems in 78+ countries.

Convening focus groups with end users, futures workshops, roundtables, thematic discussions by request (online, onsite) and/or during the events organised by ECHAlliance.

AMPLIFY

Communications campaigns using the combination of our channels: newsletter with 25000+ recipients, LinkedIn, X, dedicated targeted mailing campaigns, podcast, YouTube channel and events.

ACCELERATE

Premium series of podcasts and interviews using our communication channels.

Opportunities to launch new initiatives and programmes using our channels.

Global Health Connector as a project partner Q&A

Q: WHAT CAN YOU DO AS A PROJECT PARTNER?

We can do a number of important things: carry out policy and socio-economic studies, market analysis, exploitation and dissemination tasks and lead on stakeholder engagement to ensure project sustainability. We promote informed policymaking and drive positive change.

Q: WHAT'S YOUR BIGGEST STRENGTH?

Our biggest strength is our European-wide and global community of 1100+ members and 80+ digital health ecosystems combined with more than 15 years of experience in some 50 projects.

Q: DO YOU ONLY WORK WITH HEALTH TOPICS?

We work with topics related to digital health and innovation, including their different aspects from AI to health data to innovation generation to adoption, and more.

Q: WHAT IS THE ADDED VALUE YOU CAN BRING TO A PROJECT?

As an organisation that connects stakeholders from government, academia, business and society and has members in 1100+ organisations in 80+ ecosystems, we bring a great opportunity for stakeholder engagement, innovation management, exploitation and sustainability. Additionally, our organisation and the team have extensive experience with communication, dissemination, as well as strategic foresight and future studies.

Q: DOES THE CONNECTOR HAVE A CAPACITY TO WRITE THE PROPOSALS?

Yes, we always actively participate in the proposal development, together with the other members of the consortium.

Q: WHICH EU-FUNDED PROGRAMS DO YOU FEEL MOST COMFORTABLE WORKING WITH?

We are experienced with Horizon Europe, Erasmus+, Interreg Europe, EU4Health and Digital Europe.

Global Health Connector as a project partner Q&A

Q: I HAVE A RESEARCH PROJECT IDEA. CAN YOU HELP ME WITH PROPOSAL WRITING AND CONSORTIUM BUILDING?

We support our members in the development of the project idea and consortium building. However, we are not a proposal writing agency, and we work on projects that are aligned with our objectives and values.

Q: ARE YOU RESEARCHERS?

We are a team of professionals with a background in economics, policy, communication, innovation, healthcare and social and future studies. We are experts in digital health transformation.

As university graduates, we are not strangers to research and we have a capacity to conduct high-quality studies from the realm of social, political and humanistic studies.

Q: WHAT DO YOUR ECOSYSTEMS DO? CAN WE INVOLVE THEM IN THE PROJECTS?

Our ecosystems are permanent, geographically based multi-stakeholder gatherings that boost digital health innovations in their regions. We can engage them in the project as pilot sites, early adoption sites or exploitation consultants.

Q: ARE YOU A COMMUNICATION AGENCY?

No, we are a Global Health Connector, a membership organisation that connects stakeholders from government, academia, business and society and has members in 1100+ organisations in 80+ ecosystems. Our mission is to connect, convene, amplify and accelerate. Thanks to our community and our experience, we have great outreach capacities, and we lead communication and dissemination activities in many impactful projects.

Q: DO YOU ONLY WORK IN EUROPE?

As a Global Health Connector, our work is global, and covers also Northern America, Africa and India at the moment.

Q: HOW CAN WE GET INVOLVED IN PROJECTS WITH THE CONNECTOR?

The easiest way is to contact any member or our team or the Innovation Director at karolina@globalhealthconnector.com
